SUBJECT : ENGLISH A/B

LESSON No: 03

CLASS : '4th' FOURTH

TOPIC : THE TRICK THAT DID NOT WORK

SOLVED ASSIGNMENT OF UNIT II

QNO1. Why did the jackals become arrogant?

ANS. The jackals became arrogant because Jung looked after them, fed them and took them along wherever he went. As a result, they hardly did any work. They did not have to fight their enemies to protect themselves, nor did they have to hunt for food like other animals.

QNO2. What did the jackals tell the lion about the bull?

ANS. The jackals told Jung that the creature that was making all the noise was only a bull. But the bull was no ordinary bull. He was a messenger of gods and the gods themselves had granted him the permission to roam wherever he pleased.

QNO 3. What trick did the jackals try to play on the lion and the bull? Why?

Ans. The trick was to keep the lion scared of the bull and the bull afraid of the lion. They played the trick to keep the lion completely in their power.

STORY : THE HIDDEN TREASURE.

A rich farmer had three sons. They were all lazy. The farmer was disappointed and sad. He wanted to remove the laziness of their mind and body. He made several efforts but of no avail. Once he fell seriously ill. He sent for his sons and told them that he had buried a large sum of money in his field. They might dig the field anytime to get the money out. After some days he died.

After the death of the farmer, the lazy sons went to the field. They ploughed the fields but could not find any treasure. At last, they decided to sow seeds. As a result of sowing seeds in the fields, they got good crops. They sold the crops and earned a lot of money. This made them rich. They learnt a lesson. They left laziness and worked in fields.

ESSAY : COMPUTERS.

The word computer is originated from the word compute which means to calculate or reckon. Computer is an electronic device for storing and processing data making calculations or controlling machinery. The computer is one of the greatest discovery of modern science and technology. British scientist Charles Babbage invented the concept of a programmable computer in about 1856.

This small machine is doing large wonders. The main characteristics of computer which have made it extremely popular are speed, accuracy, huge data, storage capacity, data searching.

In the begning, computers were only used in accounts but today it is used in every field. Eg school admission, management and library management has become very easy. Computers have revolutionized the world.
