2. Mahanadi.

3. Southern

4. low.

C. Name the following $\rightarrow$

1. The Betwa river.

2. Narmada river.

3. Hirakud Dam.

4. Jog falls.

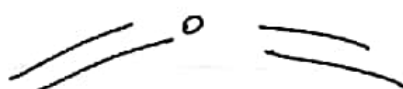

D. Write True or False $\rightarrow$

1. True

2. True

3. False

4. True.

Topic $\Rightarrow$ Our Water Resources

Lesson no. $\Rightarrow$ 09

3. { learn new words on page no. 44 }

A. Answer these Questions $\Rightarrow$

Ans 1 $\Rightarrow$ The important sources of irrigation in India are canals, dams, wells, tubewells and tanks.

Ans 2 $\Rightarrow$ Dams are called Multipurpose projects because they do not only provide water for irrigation, but produce electricity and controls flood also.

Ans 3 $\Rightarrow$ When the level of water is very deep, we have to dig wells by drilling very deep and narrow holes. A pipe is put in the hole and water is taken out with the help of a diesel or electric pump, Such wells are called tubewells.

Ans 4 $\Rightarrow$ Tank irrigation are mostly used in Tamil Nadu, Andhra Pradesh, Karnataka, Chhattisgarh, Maharashtra and Odisha.

Ans 5 $\Rightarrow$ Dams are useful to us as they help us to control floods and dams can be used to generate electricity as well.

B. Fill in the blanks $\Rightarrow$

4. Dams.
5. Tehri Dam.

Topic :- Our Mineral Resources

Lesson no. 10

Pg 03

3. { Learn new words on page no. 50 }

A. Answer these Questions :-

Ans1 :- Minerals are very useful in our modern life. We need cement to build our houses. Cement is made from limestone. We need machinery to do our work, vehicles to travel, watches, toys and several other things, we also need fuel to cook our food. and run our vehicles and machines.

Ans2 :- We should use mineral resources with great care because these minerals are very useful for the development and prosperity of our country. But these resources are limited and cannot last forever. Hence, we must not waste them and use them carefully.

Ans3 :- Mines are holes that are dug to remove valuable minerals from the earth.

Ans4 :- An oil rig off the coast of Mumbai is called Mumbai High.

B. Fill in the blanks :-

- | | | |
|-------------|---------------|-----------|
| 1. Source . | 2. refinery . | 3. Care . |
| 4. bottom . | 5. fuel . | |

C. Write True or False :-

- | | | | | |
|------------|-----------|------------|-----------|-----------|
| 1. False . | 2. True . | 3. False . | 4. True . | 5. True . |
|------------|-----------|------------|-----------|-----------|

D. Who am I :-

- | | |
|------------------|---------------------------|
| 1. limestone | 2. Chhotanagpur plateau . |
| 3. petrol | 4. water |
| 5. Mumbai High . | |

Topic $\Rightarrow$ Human Resources

Lesson no. 11

Pg 04

3 { learn new words on page no. 53 }

A. Answer these Questions $\Rightarrow$

Ans 1 $\Rightarrow$ Human resources is the set of individuals who make up the work force of an organization, business sector or economy.

Ans 2 $\Rightarrow$ The evergrowing population of our country poses many problems. Our production cannot meet the demands as consumers are much higher in number, shortage of food, shelter and clothing persists. This has affected our standard of living also.

Ans 3 $\Rightarrow$ The living conditions of the people can be improved by providing enough food, shelter and better education and health condition.

Ans 4 $\Rightarrow$ When the quality of the human resources is improved, we will be able to make better use of our natural resources for all round development of our country.

Ans 5 $\Rightarrow$ The increase in population leads to an increased demand for food products, clothes, houses etc but their supply cannot be increased due to the lack of cooperative factors like raw materials, skilled labour etc. The quality of the people in a country is more important than their number for the development and progress of the country.

B. Fill in the blanks $\Rightarrow$

1. human 2. The Evergrowing 3. quality 4. assets 5. Second

C. Write True or False $\Rightarrow$

1. False 2. True 3. False 4. True
