9. Mahima's handwriting

10. Manas's bicycle

ESSAY:→ Harmful Effects of plastic bags

Plastic bags are very popular with everybody because they are cheap, easy to carry, hygienic and strong. They can preserve food and can be used for growing plants in certain conditions. yet, these bags are quite harmful and are cause of pollution, harming animals and affecting our environment.

Plastic does not destroy easily. It is non-bio-degradable. As such plastic bags cause litter. They are thrown into bins or rubbish heaps, from where they find their way into sewers, which they block. They lie around on the roads and are eaten by the stray animals which eventually kills them. If they are burnt, they give out poisonous fumes into the atmosphere and cause pollution.

Every year, millions of plastic bags are used all over the world. Many of the developing countries like India and its neighbours only adds to the problem.

We can reduce the use of plastic bags by carrying cloth bags for our groceries and other purchases. Reusing the plastic bags is another good idea. In this way we can fulfill our duty towards the environment.

Letter: → A letter to a friend, inviting him/her to spend summer vacations with you.

Razbagh Srinagar
Date: 15-07-2019

Dear friend,
I hope you are well by the grace of God. Our summer vacations are starting after two days and I have heard that your vacations are also starting. I want you to come and spend the vacations with me. The weather here is very pleasant. You will enjoy a lot. Try to come soon as I will be waiting for you.

Your loving friend
A. B. C.
